Are there internal and external constraints to implementing a solution? Mojo is a quality that attracts people to you, making you feel successful and full Their research into prior solutions surfaced what seemed initially like a promising approach: storing rainwater in a gallon jar that was almost as tall as an adult and three times as wide.

An excellent resource. Consequently, EWV decided to test the storage solution.

Do you have the necessary support for soliciting and evaluating possible solutions? He is a sought after speaker and has lectured to audiences worldwide on entrepreneurship, creativity, and innovation. I'd recommend this book to anybody who is open to move forward and look at challenges differently. Thanks for telling us about the problem. The four-step process consists of asking a series of questions and using the answers to create a problem statement that will elicit novel ideas from an array of experts. Andrea Shavick.
