Permanent Education in Health is also in line with the new curricular directives for graduate courses in the health area, since it envisions the transformation of the attendance model, strengthening promotion and prevention, offering integral attendance and strengthening the autonomy of the subjects in the production of healthcare. We examined condom attitudes, perceived vulnerability to HIV, HIV AIDAS para la educacion (Spanish Edition) experiences, and sexual and substance use risk behaviors of active Latino male gang members, aged 18–26 years old, living in Los Angeles, California.

The foundation of the first public special schools for the deaf began at the turn of the century. To achieve this, it is not enough to transmit new knowledge to professionals, since the accumulation of technical knowledge is only one aspect of the transformation of practices and not its central focus. As the purpose of our contribution is to give a short overview of important issues regarding deafness

in Spain, we will define deafness as a hearing impairment in the way it is described in the survey of the National Institute of Statistics 2,3. Nevertheless, there are also cases in which this is not recommended. Assessment data were collected at pretest, posttest, and 2-month followup. Bernardo added it Jun 09, Tere added it Oct 25,
